Chapter 1

"I'll make it," Jack told himself, the way he'd said it a hundred times now. "If I keep going, I will make it through."

He needed to believe that, even if there was a good chance it wasn't the truth. Even if he couldn't remember why it was so important anymore. The long run across the vast swathes of the fields around him was about more than just endurance. It was about tricking himself, chopping the distance into smaller pieces. About making it to the end of the row of wheat, then to the fence, then

The voodoo Loa (godlike spirits) are interesting beings in that their relationships with their human worshippers are much more symbiotic than is typical of 'gods' - especially modern gods. While this normally isn't an issue, and usually only makes for interesting fiction, there's sometimes a case that deserves a little more attention.

Reading the decription of this game, you might think it was a Mystery/Horror Visual Novel in the same vein as Corpse Party, for example.

But for the most part, it's not. It's a Visual Novel about a bunch of kids strolling around in an empty, not at all scary school and having very occasional freakouts. The atmosphere is very relaxed for most of the story and no one seems to actually be in danger at all until things get very close to the endings. This is also reflected in the art. The CGs seem to mostly focus on almost-but-not-quite showing off the rears of the female characters (which is actually an improvement over some of Corpse Party, lol), rather than genuinely scaring, disturbing or intriguing you. Which is not what I come to this genre for.

I wont deny that there are some parts that are okay (mostly in Ayana's ending pre-credits, imo), but they are mostly drowned out by mind-numbing boredom and the occasional facepalm.

Which brings us to the Mystery angle. Which is also not very good. The characters just kind of stumble around until someone spouts some exposition at them, rinse and repeat. If you're lucky they might find an extremely unsubtle dokument or a very obvious riddle which no one would have had any reason to write. But for the most part, there is nothing you can actually put together on your own while the game alternates between revelations that are pretty obvious and those that are kind of ridiculous. The characters are not particularly interesting either, especially the main character, who's only real character trait is that he's too cool to give a damn.

This is probably not the worst VN in it's genre, but if you are looking for a dark atmosphere, a good scare or an interesting mystery, I would recommend you to look elsewhere. And if you're just here for cute girls, there's better stuff in the Romance genre.. This game is bad yo. Choice of Games usually runs from OK to Pretty Damn Good, and this was...I wanna say, embarrassingly bad?. After last update game can no longer be launched. Even after I completely uninstalled and reinstalled it..... Am I the only one to have this problem?

. Great quality OST at a price some might consider a scam; as in, we scammed the devs!. If the last shooting game you have played was DUCK HUNT on dendy this game is not for you!

CRIMSON METAL - is HARD! HARD AS HELL! And I like it!

Props:

- Old School level design
- Awesome Soundtrack
- Cool Enemys & Monsters
- Secret Areas
- FPS Creator Engine punishmant system - If you play badly the game will punish you with a CRASH

This game make me remember the times when to complete a game was a challenging task.. The story was okay for baby yaga but my God the collectibles were just a task and there was nothing intuitive about then. My rating: 8/10

I have played many economy/trading games including Port Royale, but the Patrician 4: Rise of a Dynasty is the only one to which I always return once in a while. I think it is because its nice atmosphere of an old Europe in 14th century, when Hansa league was in its best years. With the expansion, the map also gets a lot of nice details, and the game includes important features which makes it much more interesting.

---

As with majority of the games, I feel like lot of features were not finished. Buying lands from the lords does not seem to have any effect, and many of the kingdoms does not have inland trading routes. The military vessels have to stand in a point, from which they often don't move even if pirates are sailing next to them, which makes them useless in protecting the trade routes.

The combat is very limited and repetitive, worse than in Port Royale. So thank God for Auto-Resolve.

After all, I really like this game. I spent a lot of time on it before it came to Steam and also lot of time on steam in offline mode, as no internet connection is needed. Therefore, I really recommend the game if you have at least little bit connection to history.. Unfortunately this DLC is full with errors. It is not loading the routes properly, even with the standard trick: F2 and cancel solves not the issue with some scenerios.

@ dovetails solves these issues please and provide us an update!

. This game is almost good. But it's far too boring. The music is horrible, the sound of the gun shooting (which you hear constantly since all you do is hold the shoot button) is one of the most annoying sounds I have ever heard. THE difficulty is nice, but it doesn't have any incentive to play it.

Plus the developers are obnoxious brats who had their metacritic score removed from the store page because it was bad.

---

It (obviously) can sometimes get annoying. But, you can turn it off. So I rate it around a 6/7 out of 10. Imagine if Tim Buckley made a sequel to Freddi Fish, but was somehow less than the sum of its parts. First off this is the very first review that I have ever done. With that being said this is an amazing NASCAR racing game. However, this game does come with its faults. I bought the game solely intent of adding the 2019 season pass to my game.

I love the fact that they added the new drivers and new color and paint schemes for the new 2019 season, and how they added the new teams and new engine cars. Only issues I see with 2019 season pass is that there are a few cars that look like the real race cars you see on TV, and then there are some that don't (2018 (24 car) A+, 2019 (24 car) F. With that said, the game is fun and exciting. It will take a little work to find that perfect difficulty if your looking for that real authentic racing feel that you would see on TV, but other then that I enjoy playing this game almost every night.. HOLY♥♥♥♥♥ON A STICK THIS GAME IS SO♥♥♥♥♥AND LET ME GIVE U THE RUNDOWN WHY.

1. IT AINT REALISTIC AT ALL. WHEN I SLIDE TACKLE UR ♥♥♥♥♥ AS U BEST BE ROLLING ON THE FLOOR LIKE A AN AFRICAN CHILD TRYING TO EAT A FRUIT ROLL UP NOT GET UP INSTANTLY AND♥♥♥♥♥ME IN THE♥♥♥♥♥br>2. THIS IS VERY GRAPHIC. HOLY HELL BLOOD AND♥♥♥♥♥WENT EVERYWHERE IN THIS GAME. IT WAS JUST A COMPELTE BLOODBATH ON EPIC PROPRTIONS LIKE JEEZ MAN CALM DOWN. IT GOT REALLY ROUGH WHEN THE GOALIE BENT ME OVER AND ♥♥♥♥♥ED ME SO HARD THAT HIS♥♥♥♥♥CAME OUT THROUGH MY MOUTH.
3. THE SERVERS ARE♥♥♥♥♥ LIKE HOLY DEUCE THE AMOUNT OF DDOS THAT TAKES PLACE IS OFF THE CHARTS. SOME GUY COMPLETELY SCREWED OVER MY SERVER FORCING ME TO MISS MY SHOT AND THEN BIGMOIST♥♥♥♥♥STOLE THE BALL AND SCORED CUZ HE THOUGH IT WOULD BE FUNNY TO DDOS. HE DEAD NOW
4. THE COMMUNITY IS JUST PLAIN RUDE. I CALLED SOMEONE A DINGBAT AND HE PROCEEDED TO MAKE RASCIST AND SEXUAL SLURS AT ME FOR THE REST OF THE GAME AND I FELT OFFENDED AND STARTED CONTEMPLATING SUICIDE I FELT SO BAD.
5. THE GAME IS SHORT AS♥♥♥♥♥TO DOWNLOAD AND UR PLAY TIME SHOULD BE EVEN SHORTER THAN THE ♥♥♥♥♥ING 100MB DOWNLOAD
6. IT AINT A WORLD, IT AINT SOCCER, AND IT SURE AS HELL AINT ONLINE

0/10 BEING ASSS ♥♥♥♥♥ED WITH A WALRUS TUSK IS MORE FUN. It was cheap and I had a coupon, so I bought it. It's addicting, challenging, and fun.

I would like to see them add something that tells you what power ups you have. As it is, you have to figure it out on your own, or when you use them.. Tis an interesting game and fun while being a challenge. It does have a minor issue with the initial loading page but that can be fixed by actually starting a freeform map and then exiting back to the main menu again.
